**3) I'm having a personal website of my own, so what are the additional advantages of getting myself registered under [www.srilankanphotographers.com](http://www.srilankanphotographers.com)?**

**Target Audience: Photographers**

Imagine as a photographer you are going to make and market your personal website to the entire world. It is not an easy task and it is a time consuming task. Moreover your website's publicity will be totally based on your skill set and the ability to take good photographs. Nobody will give you an assignment because of your site. Think about the infrastructure that you have to spend. For an example hosting facilities, web space, domain name registration, web design and development cost, advertising cost, etc ... Maintaining a personal website is not an easy task in the real world scenario.

Why do people advertise their names on yellow pages, it is because yellow page is consumed by many people in the world. It's a directory. Sri Lankan Photographers can be categorized under this category. We will be taking control of promoting our website to the entire world through several ways and means therefore as a photographer you don't have to worry over the advertising cost or any other infrastructure expenditures. We will be creating you a complete web page for lower price, not just a simple description compared to others in the market. So you should be proud of yourself of being a member of our website and also having a personal webpage.
